❖ More than 8 years' experience in databases like Oracle, SqlServer, MySQL and Postgres

❖ About 2 years in NodeJs, React, JSON

Currently focused on big projects especially with Java, Spring MVC, React, Redux, NodeJs.

Academic Qualifications

2004 - 2007   **Univag University Center – Várzea Grande**
Bachelor's Degree in Information Systems

2009 - 2011   **Open Top School in Brazil - ESAB– Vitória**
Specialization course in Systems engineering

Professional Experience

Mato-Grossense Information Technology Company – MTI
September, 2013 / Present

● Senior Full-Stack Developer;
● Implemented systems using technologies like JavaServer Faces, JPA/Hibernate, CDI/Weld, Maven, Spring MVC, Jasper reports, JavaScript, JQuery, NodeJs, React, Redux, JSON, SOAP, XML
● Databases Oracle, MySQL, Postgres
● Project Management with Microsoft Project
● Process Management with BPMN (Bizagi)
● Technical support for the development team.

This is a governmental enterprise, a technology institute that provides the know-how to entire state. I'm designed to provide integration between more than seventy projects, some are small others big. I use a layer of integration using Java and REST protocol, providing services to different interfaces made in React/Redux, JSF and JSP (Spring). For database, it has used Oracle. Besides that, I maintain a legacy system in java called CTE, Knowledge of electronic transport, an eletronical document that anyone that

transport products of any kind, need to take to do that legally. In this big project we use webservices, xml, SOAP to provide an interface to be used for all country.

Univag University Center
September, 2010 / August, 2013

- System Analyst & Middle/Senior developer;
- Implemented systems using technologies like C#, Asp.net, Web services, HTML, CSS, Delphi
- SQLServer, using strongly MS-SQL

March, 2008 / March, 2009

- Junior/Middle developer;
- Implemented systems using technologies like C#, Asp.net, Web services, HTML, CSS
- SQLServer, using strongly MS-SQL

Network Business Solution - NBS
March, 2009 / May 2010

- System Analyst & Middle/Senior developer;
- Implemented systems using technologies like Vb.net, C#, Asp.net, Webservices,HTML, CSS
- Oracle, using strongly PL/SQL
- Technical support for the development team.

Regional Accounting Council of Mato Grosso - CRC-MT
July, 2007 / March, 2008

- Junior developer;
- Implemented systems using technologies like PHP, Mysql, HTML, CSS

Certification
- ITIL V3 Foundations

Core Skill Profile

- Java EE, CDI/Weld;
- OC4J, Jboss/Wildfly, Tomcat;
- JPA/Hibernate;
- JSP Servlets (Spring), JSF, Spring MVC;
- HTML5, CSS3, Ajax, Primefaces;
- XML, JSON, SOAP, REST;
- JavaScript, JQuery;
- Jasper Report
- Oracle, MySql, Postgres, SQL Server.
- Eclipse, Visual Studio, Sublime, NetBeans
- Maven;

- SVN, Git;
- Linux, Windows;
- Beginner at Android;
- UML, Design Patterns;
- SCRUM, Scrum Master;
- TDD, Selenium;
- BPMN, Bizagi
- Power Designer
- Devexpress
- Node.js
- React, Redux

Languages

- ✓ Intermediate to Advanced English (and improving)
- ✓ Native Portuguese.
- ✓ Spanish (Basic)
